Beschreibung

November the 16th there will be a new edition of Pandemoniun, the dance event that is to everyone with a heart that beats on the beat of hardcore music. The ones who visited the event last year can confirm that the pronunciation “feast’ is an understatement for this event. This year we have some positive changes concerning the location and the styles of music of Pandemoniun - Physical Readmission. Not only will we continue to provide high quality music and sphere, this year we will also inspire you with the theme of the event.

The 16th of November will be a golden combination of various and stunning music and we will amaze you by entering the wonderful world that we have in mind for you. We want the visitors to open all their senses and feel the transformation by entering the temple of hardcore. We want you to have that nervous feeling, remember your first day at school or your first kiss …… and then… PANDEMONIUM!!

A combination of experience and music will be the headline of the evening. To make you just as excited as we are, we will give you a start up.

Keep your feet on the ground! This year Pandemonium will expand. The early terror area is bigger and we have added a Psytrance area. Different areas will increase the labyrinth effect of the Sporthallen Zuid. You are not obligated to bring a compass, but it will come in handy. That is not all. The scaffolds will be moved to the main stage. If you are asking yourself what that means: we invite you to come and take a look for yourself.

We would like to see you (or your Physical readmission alter ego) on the 16th of November to share and experience our love for music. Sharing is caring!

Pandemonium, it’s a feeling within all of us!
